

Are you authorized?
Follow these steps
to activate

If someone has granted you authorisation to handle his/her government business, you must activate this authorisation with an activation code. You will receive this code from the person who has granted you authorisation.

Step 1

Log in to MijnCN. 

Step 2

Navigate to *'Authorisations'*.

Step 3

Click on *'Received authorisations'* in the menu.

Step 4

You will see a summary of the authorisations that need to be activated in the *'Open authorisations'* block. Select the authorisation you wish to activate and click *'Activate'*.

Step 5

Check the details. If all the details are correct, select the option *'I accept the authorisation request'* at the bottom to accept the authorisation request.

Step 6

Enter the activation code that you received from your client and click *'Complete'* to complete the activation.

The authorisation is activated and you can log in securely.
