

You can verify your account with these 5 steps

You have created a MijnCN account. Did you previously have an account to submit your income tax return online, and do you want to have access to your previously submitted tax returns in MijnCN? Or do you want to use the online services of SZW? Then your identity must be verified once-only with the help of a verification code. Follow the steps below.

Step 1

Log in to MijnCN. 

Step 2

Click on 'Request verification code' and then on 'Request'.

Step 3

A verification code will be sent to the postal address registered with the Dutch Tax and Customs Administration/Caribbean Netherlands. You can also collect a copy of the verification code from the counter at the Belastingdienst. These details are strictly personal. They will only be handed over to you personally on presentation of a valid form of identification. Once you have the code, *log in again to MijnCN.*

Step 4

Click on 'Verify'.

Step 5

Enter the code and click on 'Activate'.

You now have full access to your information.
